**The British Residents Society ask for HELP!
URGENT APEAL BY A BRS MEMBER**

We have been asked by the **British Residents Society (BRS)** if on their behalf we can make an **URGENT APPEAL ON BEHALF OF ONE OF THEIR OWN MEMBERS** whose name they do not know.

**When someone is in need
Naturally we are only too pleased to assist**

The **BRS**
are a well known Association amongst
Ex-pats in North Cyprus. Unfortunately
they are unable to help their own
member and have asked for our
Associations help.

The unknown BRS member is currently in the LEFOKOSA STATE HOSPITAL, and is urgently in need Of TYPE O+ (positive) or O- (negative) BLOOD preferably from a Male Donor aged between 40 -50 years of age due to the platelets.

IN THE PAST WE HAVE ALL TRIED TO HELP OUR OWN MEMBERS as have many non members -- SO NOW DO THE SAME FOR AN UNKNOWN **BRITISH RESIDENTS SOCIETY MEMBER**

go to the Burhan Nalbantoglu State Hospital, Lefkosa and give your blood to help save a life!

The BRITISH RESIDENTS SOCIETY NEEDS YOUR HELP

On behalf of the BRS please spread this urgent appeal to as many friends and people that you know who are currently in North Cyprus

Remember one day you too might need help from someone just like the **BRS** do today, so if you can- do try to help!
