New Association email addresses

In order for members to be able to communicate directly with a specific committee member, our Association has decided that Committee Members will have their own Association email address rather than the singular email address previously used. This will enable our Association to portray a professional image when communicating both with its membership and the wider community at large.

Our website Committee Members page has been updated with these new email addresses.

Since these email addresses will also be used by the relevant committee member to communicate with members, can you please ensure that your own email account filters are set to accept them and not send them to your Junk/Spam Folder.

These email addresses are in use as of NOW!

Email Addresses are: -

Association's General email address is	angloturkishassociation@gmail.com
