Recycling Scheme

The Anglo Turkish Association of Northern Cyprus is proud to help and contribute to the benefit of the environment by collecting and recycling **plastic bottle tops**. In 2020 as a result of this scheme the association presented the Orthopaedic Disabled Association in Lefkosa with a wheelchair.

Today 30/03/2021; Eziç Premier, Girne, contributed to this scheme by donating to the association bags full of plastic **blue bottle tops**.

PLEASE help the association recycling scheme by donating your used plastic **blue bottle tops** to help the association to provide another wheelchair. Blue Bottle Tops can be donated via Eziç Premier Restaurant in Girne, via the association secretary Caroline Houghton (please contact her directly on her email address: secretary.ata.trnc@gmail.com for information on how to donate the blue plastic bottle tops) and in the very near future via another well respected local business (details to be announced soon).
