The friendly listening association with a heart, supporting good causes in Northern Cyprus for the benefit of everyone

ATA Organised EVENTS 2022

Visit to Taskent Nature Park & Animal Rehabilitation Centre + Lunch – date to be advised

Cyprus Wildlife Research Institute is an umbrella organization for Wildlife Rescue and Rehabilitation Centre, Cyprus Marine life Centre, Wildlife Hospital and Research Laboratory, it also undertakes systematic, multi-disciplinary work related to wildlife. Established in 2016 and located in the foothills of the Besmark Mountains, Taskent wildlife rescue and rehabilitation was established because of an injured owl, an owl that today enjoys the company of other owls at the sanctuary that is Taskent Nature Park. In 2017 a marine life centre was established and in 2019 a hospital and research centre opened. Today the Cyprus Wildlife Research Institute continues to expand as it looks after God's little creatures with the care

they need!

During our visit to this interesting establishment you will see first hand the work they do to rehabilitate animals, birds and reptiles of all sorts and sizes, plus visit area of the park off limits to the general public. You will learn what to do should you come across for instance a snake in your home, an injured bird in your garden plus many other occurrences. Whilst at Taskent Nature Park we will dine in their restaurant.
