Established in 2016 and located in the foothills of the Besmark Mountains, Taskent wildlife rescue and rehabilitation was established because of an injured owl, an owl that today enjoys the company of other owls at the sanctuary that is Taskent Nature Park. In 2017 a marine life centre was established and in 2019 a hospital and research centre opened. Today the Cyprus Wildlife Research Institute continues to expand as it looks after God's little creatures with the care they need!
