ATA Organised EVENTS 2022

Travel through time at one of the TRNC's most exciting and interesting museums including a visit to the solar powered car division (lunch included)

Cyprus Car Museum opened the doors of new worlds to its visitors with its unique ship model collection and sculptures, while making you feel the power of the classic sports cars that left their mark on history, with its new hall, which is entered by passing through a used bus on the Islington Angel 149 line in London.

Cyprus Car Museum, which brings together more than 150 classic automobiles from all periods of history, including Cyprus Turkish Community Leader Dr. Fazıl Küçük's office car among them, which was given as a gift by Queen Elizabeth, will be open to visitors on August 1, National Resistance Day.

Bringing together the history of automobiles from the beginning of the 1900s to the present day with over 150 classic cars on exhibition. The museum, which also exhibits the office car that was gifted to Cyprus Turkish Community Leader Dr. Fazıl Küçük by Queen Elizabeth, will host its visitors on August 1, National Resistance Day.

With its rich collection, the Cyprus Car Museum reveals the transformation of automobiles starting from the early 1900s. The oldest vehicle in the museum is the 1901 model Crest Mobile. In addition to this vehicle, which is the only one in the world, dozens of cars from every period of 120 years of history from the beginning of the 1900s to the present offer an unforgettable cruising pleasure to their visitors.

In addition to many classic cars familiar from period films such as the 1901 Model Crestmobile, 1903 model Wolseley, 1909 model Buick, 1918 T Ford Runabout and 1930 Willys Overland Whippet Deluxe, the Cyprus Car Museum also has a rich collection of classic sports cars. One of them is the 1979 Ferrari 308 GTS hanging on the museum wall. In addition to Jaguar, the first mass-produced car to exceed the 300 km speed limit; the most flamboyant cars of their era, such as the Lamborghini Murcielago Roadster, Dodge Viper SRT10 Final Edition, FORD GT 40, 1964 Dodge Dart, 1970 Ford Escort Mk1 RS 2000, plus many more

The London EV Show, was where the TRNC's domestic car GÜNSEL was shown to the world with its first model B9!

The electric car fair "London EV Show", in which GÜNSEL, the 100 percent electric car brand developed and engineered in the Turkish Republic of Northern Cyprus, participated with its first model B9, started in London.

250 designers, engineers and technicians have been continuing to work to make GÜNSEL ready for mass production. The second phase of construction of GÜNSEL's production facilities, which completed the first phase of investment of its R&D centre and production facilities were completed in 2019 in the area where the Near East University.

GÜNSEL, which has carried out more than 2,000 test drives in the last year with its heart red, island blue, beach yellow, sky blue, and stone gray prototypes, aims to start mass production at the end of 2022 and reach an annual production capacity of 40 thousand cars by 2027.

Included in this event is return coach travel from Girne and a meal on the Near East University campus.
